Summary

Data analyst with a computer science degree and retail and business operations experience. I use SQL, Python, and Excel to turn public and operational data into clear, reproducible analysis that supports a specific decision, and I document the assumptions and limitations behind each result.

Experience

Co-Founder & Business Operations Analyst

Rambo's Hot Chicken, Simi Valley, CA | Jan 2023 – Present

- Built and maintain a weekly sales, cost-of-goods, and margin tracker in Excel, used to guide pricing, inventory ordering, and staffing decisions.
- Monitor ingredient and supplier costs against margins, flagging increases early enough to adjust menu pricing or ordering.

Technical Specialist / Sales Specialist

Apple, Simi Valley, CA | Jun 2024 – Jul 2026

- Handled 4–5 Genius Bar appointments per hour, diagnosing hardware and software issues and giving each customer clear, specific recommendations.
- Balanced technical troubleshooting with sales, recommending products and services that matched each customer's needs.

Sales Consultant

Lexus of Thousand Oaks, Thousand Oaks, CA | Feb 2022 – Mar 2023

- Managed the full sales process from first contact through close, with a focus on understanding each customer's needs.
- Tracked leads in the CRM and used sales-stage conversion data to prioritize follow-ups on the highest-potential prospects.

Sales Associate

Victra (Verizon Authorized Retailer) | Jun 2020 – Mar 2022

- Drove store gross profit growth of 60% toward a $40,000 monthly goal, using KPI tracking to guide daily sales priorities.
- Recommended mobile devices and plans to match customer needs and budgets.

Selected Projects

The American Affordability Index (Python, pandas, DuckDB SQL, Streamlit, Plotly)

- Modeled 2015–2024 cost changes using Census ACS, BLS CPI, and EIA data. Found that rent accounted for 74.4% of the modeled annual cost increase, with sensitivity tests across four budget weightings and documented data limitations.

Excel Salary Dashboard (Excel, dynamic arrays, XLOOKUP)

- Built a dropdown-driven salary benchmark for 32,672 job postings, with coverage metrics showing that 67% of postings disclose salary.

Edgebook (Python, SQLite)

- Local-first trading journal with CSV ingestion, trade reconstruction, and reconciliation.

Education

B.S., Computer Science, California State University, Northridge | May 2022

Senior Data Analyst Bootcamp (in progress), Luke Barousse & Kelly Adams coursework

Skills

SQL, Python (pandas), Excel (dynamic arrays, Power Query), DuckDB, Tableau, Plotly, Streamlit, Git, CRM and POS reporting

Languages

English, Punjabi, Spanish
